

Key investor information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Aegon Euro Credits Fund Euro Class Z Acc (The "Fund") (IE00BZ005876). This is a sub-Fund of Aegon Asset Management Europe ICAV (The "ICAV"). The Fund is managed by Aegon Investment Management B.V..

Objectives and investment policy

Objective: The investment objective is to provide long term capital growth.

Investment policy: The Fund is actively managed. The Fund will seek to achieve its investment objective by investing directly in fixed or floating investment grade corporate bonds and notes, which are either denominated in Euro or denominated in another currency with the currency risk hedged back to Euro or by investing indirectly in collective investment schemes. Such bonds and notes may include bonds issued by issuers that are majority or wholly owned by governmental or municipal bodies, which have not guaranteed such bonds. The Fund will invest at least 67% of its net assets in bonds issued by issuers whose credit rating is deemed to be 'investment grade', defined as meeting one or more of the following rating criteria: Baa3 or higher by Moody's Investor Services (Moody's); BBB- or higher by Standard & Poor's Rating Services (S&P) or Fitch Ratings Inc (Fitch). The Fund may invest up to 20% of its net assets in what the Investment Manager considers to be smaller, less-developed or emerging markets. There is no geographic limitation to the investment universe and the Fund is not restricted to bonds or notes issued by issuers located within Europe. The Fund will invest in financial instruments denominated both in Euros and in other currencies. Where non-Euro denominated financial instruments are held, the Investment Manager will seek to hedge the associated currency risk back to Euros.

The benchmark of the funds is Bloomberg Barclays Capital Euro-Aggregate Corporate Index. The Fund is actively managed in relation to the benchmark. The degree of freedom from the benchmark is moderate.

Other information: Participants can enter or exit the Fund on a daily basis at the intrinsic value of the participation in the Fund. When applicable, the fund will charge a mark-up for subscriptions or a mark-down for redemptions. The Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

The risk/reward profile shows the risk of investing in the Fund, based on the rate at which its value has changed in the past. The Fund has been categorised as 3. The Fund's risk and reward category is not guaranteed to remain unchanged and may shift over time. It is calculated using historical data, which may not be a reliable indication of the future risk profile of the Fund. Category 1 does not mean 'risk free'.

The following risks, which are not, or are not fully, reflected in the risk/reward profile are also relevant to the Fund.

Credit risk: The Fund is subject to credit risk in respect to its investments and with regard to its contractual counterparties (such as hedge providers).

Liquidity risk: The secondary market for sub-investment grade bonds is typically much less liquid than the market for investment grade bonds, frequently with significantly more volatile prices and larger spreads between bid and asked price in trading.

Interest rate risk: The Fund's exposure to market risk is mainly with regard to movements in the value of its investments, changes in interest rates that in the event the Fund makes any fixed interest investments, may decrease its net interest income. In the event of a general rise in interest rates, the value of certain investment in the Fund's assets may fall, reducing the net asset value of the Fund.

Full details of risks are disclosed in the 'Risk Factors' section of the Fund Supplement to the Prospectus and the Prospectus: Aegon Asset Management Europe ICAV.
