

Authorisation of adviser

Why this form?

As an employer, you can supply your employer and employee data online using the employer portal. You may have authorised an adviser to do so. Please inform us of this, so that we can give your adviser access to the employer portal. You can also use this form if you decide that you want to keep your pension records yourself or if you have authorised a different adviser. In that case, your current adviser can still change your details until the end date indicated by you.

What can your adviser do on the employer portal?

If you register your adviser, your adviser can keep all pension records. You will no longer be able to make any changes yourself. For access to the employer portal your adviser will receive a user name and a password.
