Fund description

The fund invests in equities worldwide. The fund is a feeder-fund with the objective to permanently invest 85% or more of its assets in the Aegon Global Multi Manager World Equity Index Fund (the 'master-fund'). In addition, the American dollar, British pound and Japanese yen exposure in the benchmark is hedged on a daily basis to euro.

Aegon AM uses a structured multi-manager investment process for asset management. This means that on the basis of an intensive selection process, specialized external managers manage the assets. The investments are passively managed. In principle, one external manager is appointed for cost reasons.
